PROFESSIONAL SUMMARY

Entry-level Software Developer with hands-on experience in Full Stack Development using React and Django REST Framework. Strong in Python, REST APIs, SQL, debugging, and Software Development Life Cycle (SDLC). Seeking an Associate Software Engineer role to build scalable and reliable software solutions.

CORE SKILLS

Programming: Python (OOP), JavaScript
Frontend: React, HTML, CSS, Tailwind CSS
Backend: Django REST Framework, REST APIs
Database: SQL, MySQL
Development: OOP, SDLC, Software Testing, CRUD Operations, Authentication, Debugging, API Testing
Tools: Git, GitHub, Postman, VS Code

INTERNSHIP EXPERIENCE

Full Stack Development Intern
DMX Technologies and Services Pvt. Ltd. | Sep 2025 – Jan 2026

- Developed responsive web modules using React and integrated REST APIs to improve UI performance.
- Built secure backend APIs using Django REST Framework supporting CRUD operations and authentication.
- Debugged application issues and fixed functional defects under senior developer guidance.
- Worked across the complete SDLC including requirement analysis, development, testing, and deployment.
- Performed API testing using Postman to ensure reliable backend communication.

Full Stack Development Intern (virtual)
International Institute of Digital Technologies, Tirupati (APSCHE & Blackbuck Engineers) | 2024

- Completed intensive training in Full Stack Development covering frontend, backend, and database integration.
- Developed web applications using Python, HTML, CSS, and JavaScript.
- Learned REST API development, debugging, and software testing fundamentals.
- Gained practical exposure to SDLC, version control, and real-time project development.

PROJECTS

Full Stack E-commerce Application (Flipkart Clone) | 2025

- Developed a single-page application using React functional components and React Router.
- Integrated third-party APIs using useState and useEffect for dynamic data rendering.
- Created reusable UI components and optimized application performance.

Django REST API with Frontend Integration (E-commerce) | 2025

- Developed secure REST APIs with full CRUD operations using Django REST Framework.
- Implemented token-based authentication and robust error handling.
- Integrated backend APIs with frontend using HTML, CSS, and JavaScript.
- Tested API endpoints using Postman for functionality and reliability.

EDUCATION

- (B.Tech) – (ECE), KSRM College of Engineering, Kadapa (2022–2025) – CGPA: 8.01/10
- Diploma (ECE), Govt. Polytechnic, Tadipatri (2019–2022) – 74%
- High School, ZPHS, Kondamarla (2019) – CGPA: 9.2/10

CERTIFICATIONS

- NPTEL – Internet of Things (IoT)
- Python Full Stack – Virtual Internship
- Data Science – Skill Course

ACHIEVEMENTS & ACTIVITIES

- Participated in Circuit Debugging Competition at KSRMCE, demonstrating problem-solving skills.
- Built production-ready APIs and React applications with real-time data integration.
